## PARAT'S HISTORY

**1993**

**THE MOBILE OFFICE**

Expansion of the product portfolio to include storage solutions for IT equipment. The cornerstone for all electrified case systems was laid.

**2004**

**THE EDUCATION SECTOR**

Expanding the product portfolio into the education sector let emerge new challenges: the storage solutions must allow for simultaneous charging, managing and transporting.

**2007**

**CHARGE & SYNC**

The Parasync Multi-Dock for iPod and iPhone devices is the world's first MFI-certified Charge & Sync solution for iOS devices and paves the way for all subsequent iPad cases and cart solutions.

**2011**

**LAPTOP & MEDIA CART SERIES**

With the PARAPROJECT® media and notebook carts, PARAT launches flexible IT stations onto the market.

**2012**

**PARAPROJECT® CASE**

When the first series cases for up to 16 iPad devices appear on the market, PARAT establishes a new milestone in its product history.

**20 YEARS' PARAPROJECT CASE**

**2018**

**SERVICE DRIVE**

New additional capacity in development and production enables an even better service and ensures a high level of product quality.

**30**

YEARS OF EXPERIENCE IN THE IT INDUSTRY

**2021**

**TWINCHARGE**

Always staying at the cutting edge for our customers, we develop and produce according to the latest technological requirements. With USB-C® and current charging standards such as Power Delivery and GaN technology, PARAT expands the successful PARAPROJECT® product series - and includes the TwinCharge models. More on page 12

**MY IT-CASE**  
always parat.

Mobile premium solutions for education and training, industry and healthcare. When it comes to portable storage solutions for charging, syncing and protecting IT equipment, PARAT - as a leading manufacturer in this segment - comes up with suitable solutions for any partner and platform. At PARAT, more than 75 years of experience in developing and producing premium tool cases meet a wealth of expert knowledge gained from plastics processing. This is the basis for creating highly innovative products such as customized, mobile cases and transport solutions, which make it easy to integrate even advanced IT and electrical engineering components in line with the most demanding VDE standards. The term 'premium quality' of PARAT products stands quite literally for an uncompromising high level of quality and excellent service. We should like to take this opportunity to express our thanks for the trust you have placed both in PARAT and in our products. Please be assured that we will continue to work on innovations and improvements down to the last detail.

Fore more than 75 years, tomorrow and in the future!

THE IT-CASE

# CASE HIGHLIGHTS

One case, many opportunities: whether tablet or notebook, 10, 15, 16 or 20 devices, whether iOS, MS-Windows or Android operating system, with or without protective covers - the PARAPROJECT® cases provide an advanced storage system for the most varied of requirements. As a reference solution for tablet classrooms and training courses, the high-quality and innovative PARAPROJECT® case series has established itself on the market for smart training and system cases.

## #1 COMFORTABLE

The case lid with "EasyUp" hinges allows for extraordinary user-friendly handling of the case. Transporting the case becomes child's play with its low empty weight, the 4-wheel concept "EasyMove" as well as a 1-meter extendible telescopic handle and carrying handles on both sides.

## #2 NEAT&TIDY

No more cable tangle! All case systems with USB charging cables enable a neat cable management thanks to their USB ports connected in a row and cable routing channels. If need be, the cables can be replaced in no time.

## #3 PROTECTED

Whether fixed or flexible: thanks to padded push-in compartments for up to 20 tablets, notebooks or chromebooks, the devices are easily stowed away and well protected. Our Plus models with plug-in slots create even more flexibility and storage space.

## #4 ROBUST

The case shell is either made from scratch-resistant X-ABS softtouch plastic or UV-proof ABS/PMMA. The robust skin guarantees that the PARAPROJECT® cases easily withstand shocks and staining.

## #5 SMART

Smart and sustainable: all case systems charge the devices via smart USB charging management or original power packs. The integrated, programmable charge timer \* protects the devices from overheating while supporting sustainable charging.

\* depending on model

## #6 HANDY

Storage compartments integrated in the case body offer additional space to stow away accessories or working materials and provide connection interfaces for Access Point, Apple TV or a master device. Thanks to a central USB interface, charging and syncing of the devices is no problem at all even with the case lid closed.

**PARAT®**  
THE IT-CASE

# # CHARGING TECHNOLOGIES

NEW  
NOW ALSO  
WITH  
GaN TECHNOLOGY

## TC

TWINCHARGE

The TwinCharge (TC) feature allows users to charge their terminals according to the latest standards and at lightning speed. Devices such as tablets, notebooks or chromebooks, rechargeable via USB-C®, can be charged all at a time. In addition, USB-A charging ports, integrated in parallel, enable the use of already existing charger cables for older devices. The TwinCharge technology also supports the latest USB-PD (PowerDelivery) standard. Here, we talk about a smart charging solution that automatically recognizes the charging power needed for each device from 5V - 20V. Moreover, the terminals can be charged in no time, enhancing the TwinCharge technology by the QuickCharge feature.

>> S. 12

## C&S

CHARGE & SYNC

The Charge & Sync feature allows users not only to charge iOS devices such as tablets, the sync technology also enables the user to manage data for all connected devices via the well-proven synchronization function.

>> S. 16

## CO

CHARGE ONLY

The Charge Only models easily charge notebooks, chromebooks, MacBooks, ultrabooks or tablets. The devices can be optionally supplied with power via user's own power pack or using an appropriate charging cable inside the case.

>> S. 20

# # STORING

**CASE INDIVIDUAL POCKETS**

Separate storage compartments from extremely sturdy Con-Pearl® material accommodate up to 20 devices, no matter whether tablet or notebook. In addition, the pockets are padded to provide best possible protection for your devices. Depending on the model, the compartments can be individually subdivided using slot pockets. The cases are optimally suited for use in digital classrooms or training courses.

**CASE EDUCOVER®**

The EDUCOVER® cases are perfectly suited for use in preschools and primary schools. One or two large storage compartments easily hold up to 20 iPad devices in unique EDUCOVER®+ protective covers. The EDUCOVER®+ protective cover is made from shock-proof EVA foam and a hardened screen protector to provide best protection also when in use. Especially handy: click-on feature to hold Apple Pencil® or logitech® crayon styluses.

**CASE BASKET**

Depending on the model, up to 15 tablets or iPad devices can be stored in two or three tablet compartments, called baskets. Each basket accommodates a total of five devices up to 10.5" in separate slots. The baskets feature a practical fold-down handle and can be flexibly carried from A to B. Four different soft-grip handles, framed in red, blue, orange and green, are included in delivery and provide best overview of your devices.

**PARAT®**  
THE IT-CASE

# TC

## TWINCHARGE MODELS

The TwinCharge (TC) charging technology is a charging feature for terminals such as tablets, notebooks or Chromebooks™, rechargeable via USB ports. The TC-Case models charge your tablets and co. at lightning speed according to the latest techniques and requirements. From the clever USB-PD (Power-Delivery) function via smart QuickCharge feature up to the most varied of storage options - you name it, this all-rounder handles it.

# C&S

## CHARGE & SYNC MODELLE

Charge & Sync stands for charging and managing devices via one physical USB interface or conveniently via MDM (Mobile Device Management Software) in WLAN environments. Here, the PARAPROJECT® C&S models support all operating systems and devices which can be integrated either via a USB sync unit or WLAN into the MDM. The case not only stows away tablets, also a master laptop or MacBook to manage data find their proper place inside.

# PARAT®

THE IT-CASE

**MY PARAT CHARGE & SYNC ALLOWS ME TO EASILY PREPARE AND CONFIGURE OUR TABLETS FOR CLASSROOM TEACHING. THE LED DISPLAYS ENABLE ME TO MAKE A QUICK VISUAL CHECK THAT ALL DEVICES ARE PROPERLY CONNECTED AND CHARGED.**

# PARA PROJECT® TROLLEY

always parat.

Charging, syncing and storage station for up to 40 tablets. The PARAPROJECT® trolley combines ergonomic design, functionality and device protection in one versatile storage solution for tablets and notebooks. Perfectly suited for applications where a large number of IT devices need to be always charged and ready for use.

i32 PRO		28
U32	 	29
U40/20 WOL	 	30
<b>NEW</b> C30	 	31

**PARAT®**  
THE IT-CASE

# i32 PRO

832.510-999 Trolley i32 Pro, Charge&Sync; incl. Lightning®-cable | 832.530-999 Trolley i32 Pro, Charge&Sync; without cable

## #1 CHARGE&SYNC

The PARAPROJECT® Trolleyi32 charges, syncs and securely stores up to 32 USB-rechargeable tablets via one central unit. Thanks to integrated castors, the trolley plus IT equipment can be smoothly wheeled from one classroom into the other - easily and without stress.

## #2 NEAT&TIDY

Numbered slots on two storage bays easily accommodate even wider cases such as EDUCOVER®+ and KidsCover as well as a keyboard cover. Charging cables can be neatly stowed away in the slots and optimally adapted depending on the distance from the tablet and routed right up to the USB charging unit on the back of the case.

## #3 HANDY

The USB sync ports, next to the LED status displays on top of the working surface, allow to manage all tablets via MDM software, Apple configurator or KNOX (software not included). As a particularly handy and space-saving feature, the case comes with two retractable and lockable doors.

# U32

832.600-999 Trolley U32

## #1 CHARGE

The PARAT Trolley U32 from the PARAPROJECT® series is a practical cart plus portable charging station rolled into one. It easily accommodates a total of 32 tablets, chromebooks or laptops up to 15.6".

## #2 FLEXIBLE

32 compartments on three pull-out storage bays offer plenty of space to hold even wider devices, large cases and keyboard covers. The cable routing is neatly integrated in the slots and allows users to individually adapt the cable lengths depending on the size of the device.

## #3 CENTRAL

The technical equipment compartment is secured behind a lockable door on the back of the cart. A central power unit enables to connect up to 32 original power packs to Schuko sockets. Refitting the case with a TC5 TwinCharge module (accessory) provides power supply via USB-C®.

# U40/20 WOL

840.000-999 Trolley U40/20 WOL

## #1 CHARGE

This space wonder easily accommodates up to 40 tablets or notebooks incl. power packs in push-in compartments or slots while at the same time supplying them with energy: In addition, an optionally integrated switch in 19" rack format simultaneously allows users to manage up to 20 devices via Wake-On-LAN technology.

## #2 MANAGE

The Smart Charging Management feature enables to recharge the power packs of your terminals in parallel mode for maximum availability of your equipment. Moreover, an integrated charge-timer allows to set optimally scheduled charging times per day and week for the extra bit of planning security and efficiency.

## #3 SECURING

The robust, hard-wearing steel body combined with lockable roller shutters protect the valuable case content. At the same time, an active ventilation system prevents the devices from overheating. Additionally on board: a Schuko socket on the side panel for further hardware, a network connector and main switch.

# C30

830710999 Trolley C30 incl. Lightning®-cable | 830720999 Trolley C30 incl. USB-C®-cable | 830700999 Trolley C30 without cable

## #1 CHARGING POWER

The new Trolley C30 is equipped with the latest USB-C® ports. Up to 60W per port enable quick charging and support USB-PD Power Delivery. The C30 is compatible with all devices such as tablets, chromebooks or laptops rechargeable via USB-C®.

## #2 SMART INSIDE&OUTSIDE

Arranged on three storage bays, up to 30 tablets, chromebooks or laptops can be securely stored and transported in the slim case body. The top surface serves as a desk.

## #3 FULL CONTROL

A smart LED display with viewing window on the case body provides clear overview of the charging status of each single terminal. This allows users to check and control the respective charging data per port.

# PARA PROJECT® CUBE

always parat.

Smart charging station - if you're looking for a charging solution on a minimum footprint, the PARAPROJECT® Cube is exactly the right choice. Mounted to a wall surface or stackable up to three units, the cube provides flexible use. The lockable cube protects the devices from unauthorized access and guarantees reliable recharging of the power packs.

	Cube U10		34
<b>NEW</b>	Cube C12		35

**PARAT®**  
THE IT-CASE

# U10

990.590-999 Cube U10 incl. USB-A to Lightning®-cable | 990.592-999 Cube U10 incl. USB-A to USB-C®-cable

## #1 CHARGE & SYNC

Mounted to a wall and stackable up to 3 units, the cube provides flexibility for the use in many fields of applications when charging and syncing up to 10 tablets.

>> suitable wall mounting  
part no.: 990.575-999

## #2 NEAT&TIDY

The cube's lockable and retractable front door protects your devices from unauthorized access. In order to prevent the risk of overheating, the cube comes with an automatic ventilation system.

## #3 HANDY

Portable baskets can be used as a supplement in order to transport the tablets from the place of storage to the place of action.

>> for baskets see page 38

# C12

990701999 Cube C12 incl. Lightning®-cable | 990702999 Cube C12 incl. USB-C®-cable | 990700999 Cube C12 without cable

## #1 USB-C® CHARGING MANAGEMENT

The new Cube C12 is fitted with the latest USB-C® ports. Up to 45W per port enable quick charging and support USB-PD Power Delivery. The C12 is compatible with all devices such as tablets, chromebooks and laptops rechargeable via USB-C®.

## #2 MORE SPACE

Thanks to the vertically arranged 12 compartments, devices with or without cases/keyboard covers up to a total size of 360x290x32mm each (LxHxW) can be individually used - perfectly suited for max. 14" devices. The newly designed lockable roller shutter disappears into the bottom of the case and provides even more space for a quick and easy removal of the devices.

## #3 PLUG & CHARGE

The LED displays in the viewing window allow users to visually check the charging status of each device even with the lid closed. Depending on the model, the case comes with the appropriate USB-C® to C or USB-C® to Lightning® cables in optimized lengths.

# PARA PROJECT® ACCESSORIES

always parat.

**PARAT  
FOR THE  
FUTURE**

# 6 GOOD REASONS

Maximum storage space on a minimal footprint combined with the latest technology: our guiding idea for the storage and transport solutions of tomorrow! Always having an open ear to our customers and the passion for detail enable us to develop new ideas and projects for the future - every day.

## REPAIR RATHER THAN BUY

A long service life of a product is basically more sustainable than having to buy new. This is exactly why our products are designed with the aim to repair them or replace individual parts (screw-ons) in case of wear and tear or in the event of an accident. We offer, beyond the statutory warranty obligation, individual service concepts and extended warranty cover within the framework of a tender or master agreement.

## INNOVATIVE TECHNIQUES

State-of-the-art charging technology with USB-C® ports, along with fast charging power according to USB-PD Power Delivery, QuickCharge and GaN standards, those are the future-proof performance features of the newest PARAPROJECT® case and trolley generation. In addition, already existing classic, single power packs for laptops and tablets can be connected to some products. Carefully selected USB cables with LED display and robust reinforcements complete the entire portfolio.

## QUALITY THAT'S WORTH IT

Long-life cycle and workmanship that wows the user. We exclusively use extremely sturdy and well-proven materials to produce our high-class IT systems cases and carts. The sourcing of raw materials and components as well as the manufacturing process itself are carried out in accordance with the most demanding European and international guidelines for supply chains and material standards.

## SOPHISTICATED SECURITY

Security and protection of both user and high-class devices are our top priority. Our product portfolio is subject to various TÜV/GS and DIN standards. This is why we not only test each single technical component, we also test the overall system at maximum capacity in order to guarantee product safety under real world conditions.

## EXCELLENT SALES SERVICE

Satisfied customers are those who have invested in the right product right from the start. This is why PARAT supports all sales partners and their customers from comprehensive advice to demonstration models up to individual demand analysis on site. With the use of digital content and products to see and touch at trade fairs, we reach the greatest common ground to accompany our customers during procurement and in calls for tender on the way to finding a perfect solution. You can rely on PARAT - wherever and whenever required. Please feel free to contact us!

## FOCUSING ON ERGONOMICS

Inner values that are convincing. Solutions that are well thought-out. With everything in the right place: a huge variety of model variants offer the right opportunity for practically any application profile and device combination to find the configuration of your wish. Whether tablets, laptops or further peripheral devices, all is designed for flexible and ergonomic use.

# ALWAYS READY PARAT

Do you have any questions about our product or do you need a concrete offer within the scope of a call for tender? Regardless of how diverse your concerns are, we will do our best to help you and find a solution that suits your exact needs.
